

# THE MODULAR SOLUTION FOR SHIPPING OPTIMISATION

ACCELERATE YOUR INTERNATIONAL EXPANSION

ShippyPro is the software that brings together everything to ship, track, return orders, analyse shipping costs and performances to enhance any company's logistics operations.

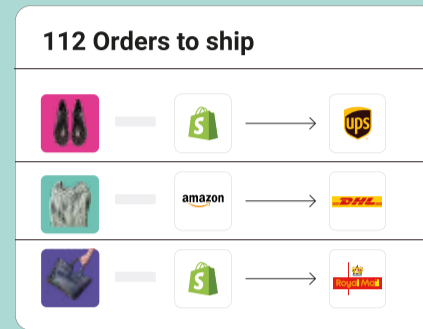

## OPTIMISE DELIVERY EXPERIENCE AND OFFER FLEXIBILITY

Track every parcel in transit and send automated branded tracking updates via email, SMS, and WhatsApp in 5 languages to keep customers informed, using smart ads to re-engage them.

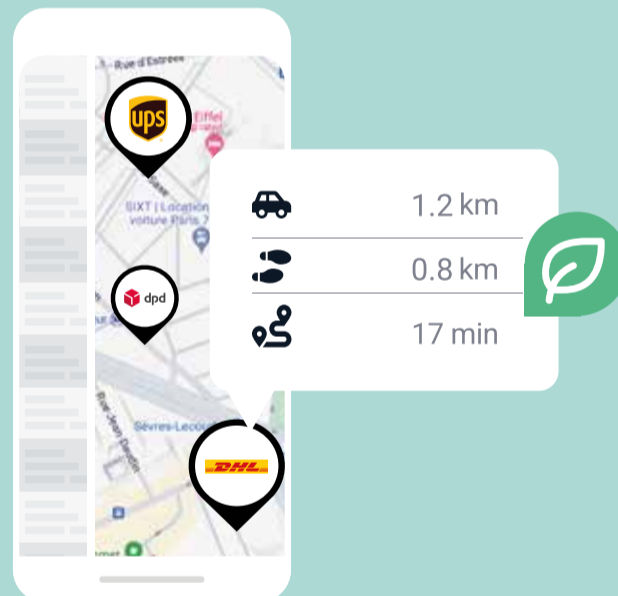

## AUTOMATE EVERY STEP OF ORDER FULFILMENT

Automate carrier rates comparison and generate shipping labels & documents to speed up and bring efficiency to your shipping process.

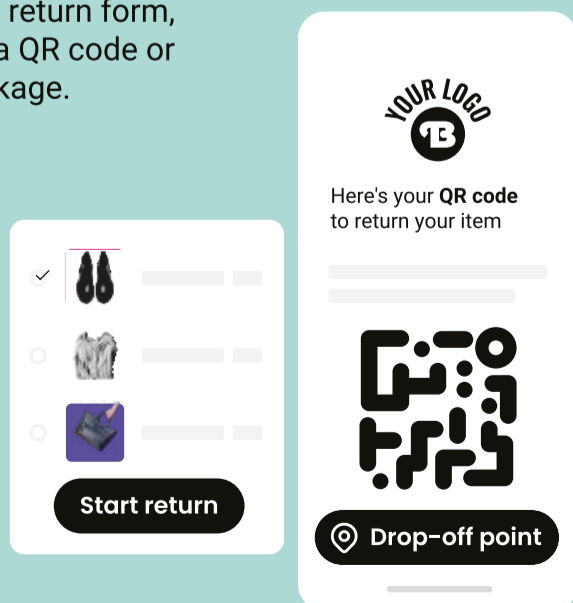

## BOOST YOUR CHECKOUT CONVERSION RATE

Show the nearest pickup/drop-off points (PUDO) at checkout and offer clients the flexibility they need with multiple delivery options.

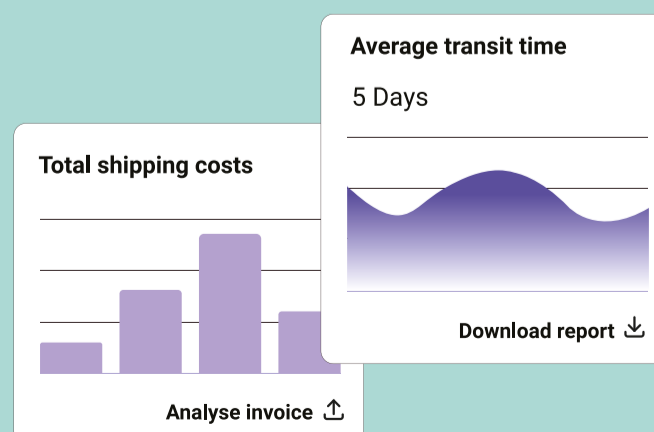

## SIMPLIFY INTERNATIONAL RETURNS MANAGEMENT

Offer a seamless return process and amaze your customers. Customise the return form, provide paperless returns with a QR code or include the label inside the package.

## ANALYSE YOUR SHIPPING PERFORMANCES & COSTS NEW

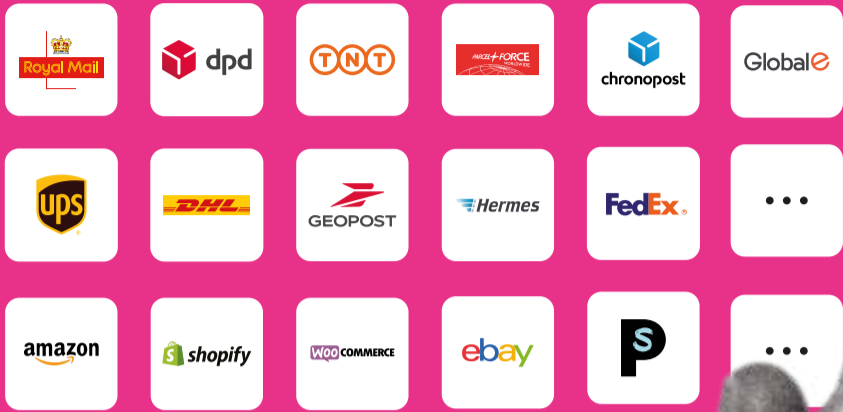

All the power of big data analysis with the simplest interface. Access to hidden shipping data to monitor your shipping KPIs, spot new trends, create reports and analyse your invoices to keep your costs under control.
